ATTENTION/ DISCLAIMER

COVID-19

We do our very best to ensure safety of both our skaters and the fans attending the event. We encourage you to wear a face covering and ask you to not attend if you've tested positive or have recently been a contact of someone who's tested positive for COVID-19. As regulations might change quickly, we ask you to check the updated rules on the day of the event. We monitor and follow every government policy and Haringey Council guidelines on restricting the spread of the coronavirus and to allow us to skate in the future, we kindly ask you to do the same as well.

PHOTOGRAPHY

London Roller Derby does not authorise photography for commercial use without prior written permission. It's fine to take personal snapshots, but a release form is required for any professional or club photography regardless of its use. Please

enquire about a photography release form when collecting your wristband. Always remember to photo credit!

FLOOR SEATING

Floor seating is available around the edge of the track and we encourage you to sit there for the best view of the action. However, there's a possibility that during the game a skater may fly out of bounds and into the audience. Adults sit at the hazard tape marking at their own risk.

UNDER 18s MAY NOT SIT OR STAND WITHIN 1 METRE OF THE HAZARD TAPE.

Please do not interfere with the game by tripping, grabbing or holding skaters or referees. This creates a dangerous situation for skaters and spectators. If caught doing this, you will be escorted from the building with no refund.

ROLLER DERBY EXPLAINED

HOW THE GAME WORKS

A game is made up of a number of individual jams, each lasting up to two minutes. Each of the two teams will put five skaters onto the track at a time: one designated scoring player called the 'jammer' who wears a star on their helmet; and four 'blockers'. One blocker from each team can be designated as the 'pivot', wearing a stripe on their helmet. During the game, the jammer can give their helmet cover to the pivot blocker, turning them into the jammer. This is called 'passing the star'.

Play begins with the blockers from both teams skating in a mixed formation known as the 'pack'. The two jammers start behind the pack and must try to get through and out the front - the first to do so earns 'lead jammer' status. After this initial pass, the jammers race around the track and try to get through the pack for a second time. This is when they'll start scoring, earning one point for each opponent that they pass legally and in-bounds.

The blockers will be trying to help their jammer to get through the pack and score points whilst simultaneously trying to stop the other jammer from passing them. Roller derby is very tactical, with offence and defence being played at the same time. The jammers may continue to race around the track and score points for up to two minutes, or until the lead jammer calls off the jam (by repeatedly touching their hands to their hips). When this happens, the referees will blow four short blasts of the whistle before we start over again with the next jam! Like any sport, roller derby has a complex set of rules and strategies. Unsurprisingly though, the team with the most points at the end wins!

PENALTIES

Referees communicate penalties with one blow of the whistle, then call out the offending skater by jersey colour and player number.

PENALTY BOX

The penalty box is a seated area outside of the track. Skaters sent off for penalties must enter the penalty box safely by skating in any direction outside the track boundary and must re-enter the track behind the pack once the penalty time (30 seconds) has been served.

SCORING ON SKATERS IN THE BOX

A jammer will get a point for an opposing skater who is in the penalty box as soon as they pass one other skater from that team. This ensures that teams don't miss out on points because an opponent is in the box.

WHEN JAMMERS GO TO THE BOX

When a jammer is sent to the penalty box, the opposing team has a huge opportunity to rack up points without giving any away. This is called a 'power jam'. If both jammers are sent off, the jammer that entered the box first is allowed back on to the track as soon as the second jammer reaches the box.

SKATER POSITIONS

JAMMER

The jammer is usually a fast, agile skater and wears a star on their helmet. The jammer is the only skater who can score points, and they must break through the pack once and lap it before scoring. On their second time through the pack, the jammers score one point for each opponent passed legally and in bounds.

LEAD JAMMER

Lead jammer is the first jammer to break through the pack passing all opposing blockers in bounds and without any penalties. As lead jammer they may, at a strategic time, call off the jam to prevent their opponent from scoring more points (by putting their hands on their hips).

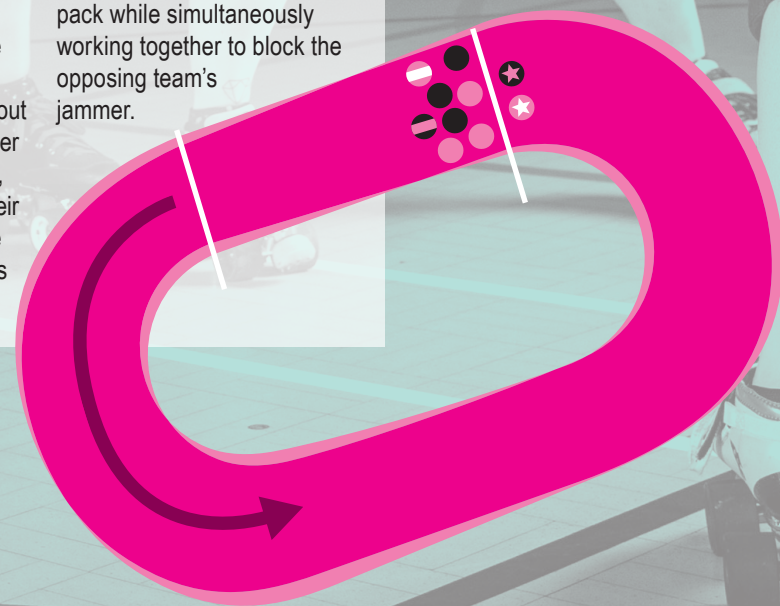

PIVOT

Each pack can field one pivot, who wears a vertical stripe on their helmet, and is the only blocker who can receive a star pass from the jammer.

BLOCKER

In addition to the pivot, each team has three blockers on the track. Blockers play vital offensive and defensive roles. They are helping their jammer get through the pack while simultaneously working together to block the opposing team's jammer.

VERSION3POINT1

EQUITY IN LONDON ROLLER DERBY

This will be a regular feature in our bout programmes, to help encourage wider conversations within our sport, ensure we are being transparent, and hold ourselves accountable.

In July I spoke about the work we are doing. This time I am using this space to talk about Chris Kaba, and his family's fight for justice.

TW/CW: police brutality, racism, death

Chris Kaba was 24 years old, a fiancée, a father-to-be, a son, a friend, a musician and we are sure so much more. On 5th September 2022 he was shot and murdered by a firearms police officer in Streatham Hill, London. He was unarmed at the time. The family of Chris are rightfully questioning whether this interaction would have had the same outcome if he wasn't a Black man. The individual officers and wider metropolitan police service must be held to account.

"WE ARE DEVASTATED; WE NEED ANSWERS AND WE NEED ACCOUNTABILITY. WE ARE WORRIED THAT IF CHRIS HAD NOT BEEN BLACK, HE WOULD HAVE BEEN ARRESTED ON MONDAY EVENING AND NOT HAD HIS LIFE CUT SHORT."

(statement from his family)

As a league we stand in solidarity with the campaign for justice, and send love to Chris Kaba's loved ones. We encourage everyone to engage with and support the campaign in whatever way they are able - whether this is donating to the online fundraiser or attending actions.

Follow [@jeffersonbosela](#) and [@justiceforchriskaba](#) on instagram for updates.

JUSTICE FOR CHRIS KABA! BLACK LIVES MATTER!
